

# AHF AFRICA

## UNIVERSAL ACCESS TO TREATMENT

For over 25 years, AIDS Healthcare Foundation (AHF) has kept its promise by delivering high-quality, compassionate and lifesaving medical care and treatment to people living with HIV. Moreover, its innovative testing, outreach, education, prevention and advocacy initiatives have stifled the spread of the virus—but the fight is not over. To achieve global AIDS control, Universal Access to treatment is a must and AHF is helping to lead the way.

In Africa, AHF has implemented highly successful initiatives in these areas since it began operations outside of the U.S. in South Africa in 2002. It currently operates in Ethiopia, Kenya, Lesotho, Malawi, Nigeria, Rwanda, Sierra Leone, South Africa, Swaziland, Uganda, Zambia and Zimbabwe.

### AHF in Africa:

- Serves 419,862 patients
- Performed 3.64 million HIV tests (2016)
- Distributed 25.7 million condoms (2016)

## SAVING LIVES

Women march in Nairobi, Kenya to commemorate Int'l Women's Day 2017.

AHF's "Keep the Promise Free March & Concert" in Durban, South Africa in July 2016.

# AHF EUROPE

## KEEPING THE PROMISE

Around the world, AIDS Healthcare Foundation (AHF) is dedicated in its efforts to Keep the Promise of lifesaving treatment and care to all people living with HIV/AIDS. AHF is ensuring social responsibility by holding government leadership, drug companies and international funders accountable in the fight against HIV and AIDS.

In Europe, AHF has led a strong fight against obstacles such as stigma, discrimination, corruption, outdated public health policies and lack of HIV/AIDS education, which hinder progress in access to HIV testing, condoms, medical care and treatment.

AHF programs are operating in Estonia, Great Britain, Greece, Lithuania, The Netherlands, Portugal, Russia and Ukraine.

## AHF in Europe:

- Serves 53,761 patients
- Performed 209,888 HIV tests (2016)
- Distributed 2.1 million condoms (2016)

# FIGHTING FOR WHAT'S RIGHT

Women march in Amsterdam, Netherlands to raise awareness about women's rights on International Women's Day.

Passersby in St. Petersburg, Russia pin ribbons to commemorate World AIDS Day.

AHF distributes thousands of free LOVE Condoms in Greece during International Condom Day.

AHF staff and the LOVE Condom mascot distribute condoms in Lithuania during International Condom Day.

# AHF ASIA

## HIV PREVENTION & CARE AT ITS FINEST

Nowhere can AIDS Healthcare Foundation's (AHF) commitment to innovation be better seen than in its ambitious and effective testing and prevention programs. As the largest provider of HIV/AIDS medical care for people living with HIV, AHF is committed to preventing the spread of HIV worldwide by making testing, treatment and condoms accessible everywhere, even in the most remote areas.

In Asia, AHF has proven this model of prevention, care and treatment works. AHF currently operates programs in China, India, Indonesia, Cambodia, Myanmar, Nepal, Papua New Guinea, The Philippines, Thailand and Vietnam.

### AHF in Asia:

- Serves 157,274 patients
- Performed 534,771 HIV tests (2016)
- Distributed 4.6 million condoms (2016)

AHF

# LATIN AMERICA & CARIBBEAN

## QUALITY HIV CARE & NEW FRONTIERS

AIDS Healthcare Foundation (AHF), the largest provider of HIV/AIDS medical care in the world, continues to boldly go where its services are needed most. AHF is bringing its high-quality medical care and services to places where the epidemic is growing.

AHF expanded services into Latin America in 2007, beginning in Mexico City.

Programs are currently operational in Argentina, Brazil, Bolivia, Chile, Dominican Republic, Guatemala, Haiti, Jamaica, Mexico, Nicaragua, Peru and Paraguay.

### AHF in Latin America:

- Serves 82,360 patients
- Performed 336,449 HIV tests (2016)
- Distributed 4 million condoms (2016)

FOUNDATION

## EXPERT HIV HEALTHCARE

AHF's path to becoming the largest provider of HIV/AIDS care in the U.S. began with a small group of dedicated activists in Los Angeles in the 1980s who had a simple humanitarian goal: give people dying of AIDS a safe, dignified, and compassionate place to spend their final days. AIDS Hospice Foundation was officially established in June 1987, and the following year the group opened the Chris Brownlie Hospice, California's first licensed hospice for people suffering from AIDS.

By July 1990, AHF realized that the need for specialized medical care was fortunately outpacing the need for AIDS hospice care, and the group changed its name to AIDS Healthcare Foundation as its focus shifted to providing cutting-edge medicine and advocacy, regardless of ability to pay.

## Yearly in the U.S., AHF:

- Serves 57,620 patients
- Performs 176,950 HIV tests (2016)
- Distributes 4 million condoms (2016)

## FOSTERING INNOVATION

### KNOW YOUR STATUS: AHF FREE HIV TESTING

Approximately 20% of those living with HIV are not aware of their status, which not only threatens their personal health due to delayed treatment, but also increases the risk of unwittingly spreading the virus to others. AHF offers free HIV testing through its various locations, in addition to hosting a multitude of testing events nationwide. Anyone who tests positive has immediate access to counseling and linkage to care. A wide array of affordable testing and treatment services for sexually transmitted infections are also offered through AHF Wellness Centers.

### DOING A WORLD OF GOOD WITH 96¢: AHF CLINIC SUPPORT

The self-sustaining business model that enables AIDS Healthcare Foundation to provide lifesaving care worldwide rests upon the nationwide collection of Out of the Closet Thrift Stores and AHF Pharmacy sites. Both of these businesses funnel 96 cents of every dollar earned into supporting domestic and international AHF clinics, which provide cutting-edge HIV/AIDS treatment and care regardless of ability to pay. Out of the Closet Thrift Stores and AHF Pharmacies are accessible to all and fit into any individual lifestyle.

### FIGHT FOR WHAT'S RIGHT: AHF SPEAK OUT

AHF Speak Out's devoted team of regional mobilizers has been a driving force in correcting social injustices related to HIV for over a decade. Whether it's the passage of both city and state laws mandating on-set condom use in adult films, lobbying in the nation's capital for legislation to provide Universal Access to care, or protesting discriminatory treatment within state-funded entities, the Speak Out team is unafraid to stand on the side of justice and humanity whenever needed.

## U.S. PROGRAMS

### AHF Healthcare Centers

provide lifesaving comprehensive medical care, testing, and antiretroviral therapy in outpatient clinics across the nation.

### AHF Pharmacy

are all-purpose pharmacies that specialize in HIV/AIDS medications and foster closer communication with healthcare providers, thus improving patient care.

### AHF Research

has sponsored clinical research since 1995, including human subject clinical trials, which focuses on developing better treatment protocols to improve the quality of life for people living with HIV/AIDS.

### AHF Public Health

provides HIV and sexually transmitted disease testing and counseling in addition to administering thousands of HIV tests annually at alternative locations, such as its mobile testing vehicles. AHF's Managed Care and Positive Healthcare plans also offer long-term, sustainable care for those living with HIV/AIDS through state Medicaid programs.

### Out of the Closet

thrift stores offer everything from designer clothes to vintage furniture and are co-located with an on-site AHF Pharmacy that can fill any prescription and also offers delivery of medications to any client's doorstep.
