

WHO WE ARE

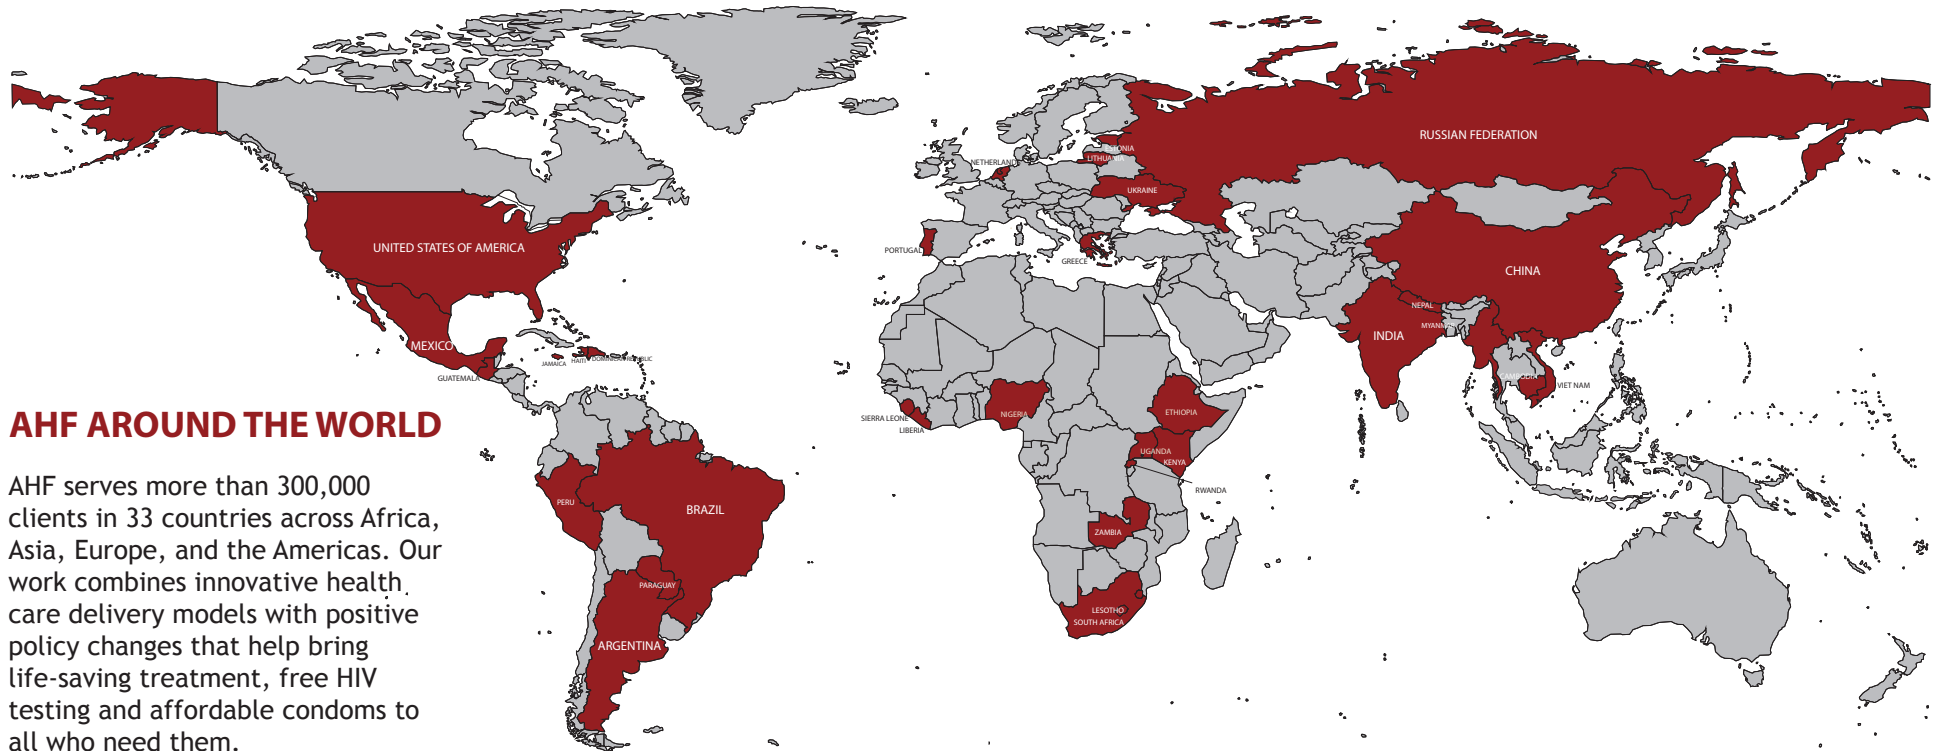

Since 1987 AIDS Healthcare Foundation (AHF) has grown from a small hospice for people dying of AIDS in Los Angeles to a global organization that delivers cutting-age healthcare services to hundreds of thousands of people living with HIV/AIDS worldwide.

WHAT WE DO

AHF fulfills its mission to provide cutting-edge medicine and advocacy regardless of ability to pay through its healthcare centers, HIV/AIDS special needs health plans and disease management programs, pharmacies, and clinics in resource-constrained regions.

HOW WE DO IT

As a truly independent voice AHF's operating capital comes from self-created social enterprises such as AHF Pharmacies, thrift stores, healthcare contracts and other strategic partnerships.

AHF AROUND THE WORLD

AHF serves more than 300,000 clients in 33 countries across Africa, Asia, Europe, and the Americas. Our work combines innovative health care delivery models with positive policy changes that help bring life-saving treatment, free HIV testing and affordable condoms to all who need them.
